

# 2023 FY results presentation

Results in line, business  
simplification, higher  
growth outlook

12 March 2024

# Agenda

- Introduction and summary – Pete Raby
- 2023 Full year results – Richard Armitage
- Operational and strategic update – Pete Raby

# Results in line, business simplification, higher growth outlook

- Organic constant-currency\* revenue growth of 2.5%, with 10.4% from our faster growing markets
- Adjusted operating profit of £120.3m, adjusted operating profit margin of 10.8% and ROIC of 17.6%
- Recovery from cyber security incident now substantially complete
- Cash generated from continued operations of £126.3 million, reflecting full recovery of the mid-year increase in working capital
- Strong balance sheet with net debt\*/EBITDA (excl. leasing)\* of 1.2 times
- Absolute CO2e emissions (from scope 1 and 2) reduced by 25% compared with 2022
- Simplification of Group structure announced alongside additional cost reduction programme
- Further market demand driving an acceleration of Semiconductor investment, with higher medium-term Group growth now expected
- Underlying outlook for 2024 performance unchanged, foreign exchange headwind anticipated

<sup>1</sup> Group adjusted operating profit is before specific adjusting items and amortisation of intangible assets.

<sup>2</sup> The ROIC calculation has been simplified so that it can be calculated from published information and the prior period comparative has been restated to follow the same methodology. See slide 31 in the appendix for details.

# Group adjusted operating profit bridge

- Principal impacts of cyber security incident are:
  - lower volume due to capacity constraints; and
  - costs of inefficient operation during the cyber incident
- Volume shows impact of industrial slowdown impacting core markets in H2
- Pricing measures continue to more than offset cost inflation
- Increased investment in IT infrastructure
- Increase in overheads (excluding inflation) limited to £7m.

# Cash flow summary

Working capital outflow of **£(3.0)m**  
2022 : £(44.7)m

Capital investment of **£58.5m**  
2022 : £57.4m

Free cash flow of **£14.6m**  
2022 : £(46.9)m

Net debt (excl lease liabilities) of £185.2m, net debt/EBITDA of **1.2x**  
2022 : 0.8x

# Simplification and restructuring

£m	FY 2023	FY 2024	FY 2025	Total
Adjusted operating profit <sup>1</sup> benefits (incremental)	1	7	10	-
Costs charged to specific adjusting items	(7)	(11)	(2)	(20)

- Simplification into three segments supports our growth ambition by allowing resources to be focused on most attractive opportunities:
  - Thermal Products
  - Performance Carbon
  - Technical Ceramics
- Further improvement in efficiency through the closure of four manufacturing sites
- Cost savings from simplification, along with back-office streamlining and other cost reductions recognise weaker short-term demand in some of our Industrial end-markets.

# FY2023 Specific adjusting items

## Cyber security incident:

Legal, advisory, IT recovery and impairment charges arising from the cyber incident

£14.7m

## Argentina:

Impairment and currency adjustments arising from the devaluation of the Argentine Peso in December 2023

£5.8m

## Restructuring programme:

Staff redundancy and site closure costs associated with our new restructuring programme (£6.5m), partly offset by a release of £3.0m in relation to our 2020 restructuring programme

£3.5m

## Others:

Net business closure and exit costs of £1.9m, and a net credit of £0.8m from an impairment review of non-financial assets

£1.1m

# Operational and strategic update

## Pete Raby

# Growth across major market segments

Year-on-year organic % change at constant-currency

- Strong semiconductor growth in both carbon and ceramic products with SiC power electronics particularly strong
- Growth in vacuum insulation and medical seals
- Destocking in rail and weakness in China
- Aerospace driving the growth in this segment
- Growth in aftermarket Seals & Bearings
- Broad-based growth in Defence demand
- Conventional energy reflecting weaker economic demand
- Decline predominantly driven by weak industrial demand, particularly in Europe.

- Revenue growth depressed by 2.5% overall and margins by 2.2% overall as a result of the cyber security incident
- Cyber impact greatest in Seals and Bearings and Technical Ceramics as their ERP systems had to be replaced
- Margins in other GBUs have seen greater improvement in the second half
- Market weakness in the second half in all GBUs in European Industrial and Metals markets
- Overall Group margins were 12.5% in the second half, within range of our financial framework

<sup>1</sup> Adjusted operating profit is before specific adjusting items and amortisation of intangible assets.

# CO<sub>2</sub>e emissions now 50% below 2015 baseline

Absolute CO<sub>2</sub>e (Scope 1 and 2)<sup>1</sup>

25% reduction in absolute CO<sub>2</sub>e emissions compared with FY 2022 driven by:

- **Green energy procurement:** transition to renewable and other carbon free energy sources
- **Efficiency and process optimisation actions:** changes to processes (eg kiln firing profiles) and equipment operating protocols eg equipment shutdowns and idling machines
- **Capital projects:** replacement of inefficient assets, transition from gas to electric fuel types, and improvement in control systems.

<sup>1</sup> Scope 1 and 2 relate to CO<sub>2</sub>e emissions from direct and indirect sources, respectively.

# Summary

- Despite the cyber security incident, we have grown revenue +2.5%, with +10.4% growth from our faster growing markets
- Margins recovered to 12.5% in the second half, in line with our financial framework
- We are increasing our investment in capacity for the semiconductor market, lifting the group's growth rate
- We are restructuring and simplifying our structure and operational footprint
- Our strong balance sheet underpins investment opportunities and the ability to deliver good shareholder returns
- Underlying outlook for 2024 performance is unchanged and aligned with our financial framework, foreign exchange headwind anticipated, with slight weighting to the second half as additional capacity comes online.

- Working capital shows recovery from cyber incident with a £45.2m improvement in second half
- Increased capital expenditure as capacity investment accelerates
- Free cash inflow of £14.6m
- Effective tax rate of 25.3%
- Net debt (excluding lease liabilities) of £185.2m, Net debt/EBITDA at 1.2x (FY 2022: 0.8x).

# Strong balance sheet and available liquidity

## Headroom on banking covenants

- Net debt to EBITDA excluding the impact of IFRS 16 leases: 1.2x (FY 2022: 0.8x).

## Significant liquidity

- £187.9m available RCF plus available net cash and cash equivalents of £123.9m
- No scheduled debt maturities until 2026.

**Average cost of long term debt = 4%**

All figures are shown on a pre-IFRS16 basis to align more closely to banking covenants.  
Net cash and cash equivalents is defined as cash and cash equivalents less bank overdrafts.

# Foreign currency impacts

The principal exchange rates used in the translation of the results of overseas subsidiaries were as follows:

GBP to:	FY 2023		FY 2022	
	Closing rate	Average rate	Closing rate	Average rate
USD	1.27	1.24	1.21	1.24
Euro	1.15	1.15	1.13	1.17

For illustrative purposes, the table below provides details of the impact on FY 2023 revenue and adjusted operating profit<sup>1</sup> if the actual reported results, calculated using FY 2023 average exchange rates, were restated for GBP weakening by 10 cents against USD in isolation and 10 cents against the Euro in isolation:

Increase in 1H 2023 revenue/adjusted operating profit if:	Revenue	Adjusted operating profit <sup>1</sup>

<b>FY ROIC</b>		<b>17.6%</b>		<b>23.7%</b>

Return on invested capital (ROIC) has been simplified this year so that it can be recalculated from published data. It is now defined as:

12-month adjusted operating profit (operating profit excluding specific adjusting items and amortisation of intangible assets) **divided by** the average adjusted net assets (excludes long-term employee benefits, deferred tax assets and liabilities, current tax payable, provisions, cash and cash equivalents, borrowings, bank overdrafts and lease liabilities).

**12-month adjusted operating profit:** sum of profit in FY 2023.

**Average adjusted net assets:** average closing position of FY 2022 and FY 2023.

**FY 2023 ROIC:** 12-month adjusted operating profit / average adjusted net assets.

Under the previous methodology (which used 12-month adjusted operating profit and 12-month average adjusted net assets), ROIC as at 31 December 2023 was 16.7% (31 December 2022: 22.4%).
